

# Helping AoD workers work better with migrant & refugee clients

## Have you ever had a meeting with a client from a migrant or refugee background that didn't go well and you're not sure why?

The Multicultural Drug & Alcohol Partnership (MDAP) works specifically with the South Sudanese community in Yarra to discuss concerns regarding AOD use and education

In collaboration with MDAP, the CEH training team is delivering **FREE WORKSHOPS** for the AoD Sector that can help you:

- reduce common misunderstanding or uncertainties you face when working cross-culturally
- practice communication strategies for working with refugee & migrant clients
- learn about the South Sudanese cultural & specific AoD stressors within the community

Our training is practical, fun, interactive and running throughout 2021.

**Contact** Siri at [sirig@ceh.org.au](mailto:sirig@ceh.org.au) to book in a session for your organisation.

Can't wait for the workshop?
